Chart Legend:

ND. Institution does not have a baccalaureate degree in this area.

UR. Under internal review by institution. Indicate stages of review required for approval.

NA. Not accepted. Institution offers baccalaureate degree in this area, but conducted internal review and decided not to accept this degree.

CA. Conditionally accepted. Transfer student can be admitted to program, but is required to meet additional requirements, such as specific IAI GECC courses, before entering on same standing with native students.

FA. Fully accepted. Transfer student enters as a junior with same standing as native student. No conditions placed on student or extra courses required.

Note: An Institutional Profile has been created for each senior public institution. This profile contains the following elements of additional information provided by each institution: total credit hours for each degree, credit hours to finish, best start date and information on how to access a template for each degree having template. It also contains contact information for the following persons: survey respondent, chief academic officer (CAO), articulation coordinator and the primary curriculum contact for each of the four AAT Degree areas.

*** The Institutional Profile also contains any comments provided by the institution re: conditions of acceptance, dates by which internal reviews are estimated to be complete, etc.**

Comments/Clarifications: *CSU does not have an undergraduate degree in SPED. However, the AAT SPED is accepted fully because CSU requires the equivalent core courses for all Education majors. Therefore, the AAT SPED is fully accepted with the understanding that you will not get an undergraduate degree in SPED. Most students transfer into the ELED program at an equivalent level as a native student and then return for the professional degree in SPED at the master's level.

Comments/Clarifications: (Comments below address all four AAT Degrees)

“The AAT does not guarantee admission to the program. If the applicant is accepted as a student to Illinois State then AAT degree in (Special Education, Secondary Math, Secondary Science, or Early Childhood Education) will be accepted as a baccalaureate-oriented Associates degree. Students that transfer with AAT degrees that include the IAI GECC will satisfy the ISU’s General Education requirement. Other courses included in the AAT programs will be articulated according to our current articulation agreements with individual community college partners. Requirements necessary to complete the degree will vary depending on individual student transfer course articulation.”
